### SIA Endorsed Aventura

Moreover, just 2 years ago, amidst the crime spree the US government alleges, SIA firmly endorsed Aventura as having a "strong history as an innovative manufacturer":

IPVM

*"Headquartered in Commack, New York, Aventura Technologies Inc. has a strong history as an innovative manufacturer of hardware and software products and peripheral solutions for government, military and enterprise."*

December 14, 2017  
[emphasis added]

And, yet, hours after the US government announced criminal charges against Aventura, SIA cowardly deleted their endorsement of Aventura.
